Please join us to honor the incredible achievements of our students as they work to improve the health of their local communities. The Health Professions Affinity Community (HPAC) program at Northeast Ohio Medical University (NEOMED) engages more than 2,400 students across 29 counties in Ohio.

Our goal is to advance local students into the health professions as we empower them to address the health in their community. Students will present their efforts of identifying and tackling issues such as mental health, obesity, substance use, and food insecurity through oral, poster, video or exhibit presentations to other students, families, health care professionals, and community stakeholders.
