**Women in Medicine (WIM) is an organization started in 1984 as a medical education retreat for lesbian and other sexual minority female physicians, medical students, their partners and their children. It is one of the longest standing LGBTQ medical organizations in the United States. Our annual retreat and conference provides CME credits for physicians. The conference also includes non-medical topics of interest to both physicians and their partners.**

**Many members of the WIM community have organized to provide a conference that combines high quality medical education with a setting that fosters professional networking and personal growth for lesbian and LGBTQ female physicians and their families across the nation, and around the world.**

**Each year WIM creates a conference-long mentoring program, pairing medical students and attendings based on fields of interest, geography, and other preferences. This is an incredible opportunity for students to learn from those of us "who've been there," to network, to strategize, and plan your careers. Don't miss out!!**
